The shill story is:

“The British Government want to silence Andrea Davison by depriving her of the natural right to good legal advise and assistance. Its a political attack because she has been exposing systematic **child sexual abuse (CSA) by VIP's** since the 90's. Its a dirty trick, don't let them win. **Join us in the push to end the sexual abuse of children.**

Recent headlines have rolled out stories about **Politicians**, Judges and entertainers connected to a Paedophile ring centred in the **Houses of Parliament** in London. Andrea Davison a **former British Intelligence agent** began exposing CSA in the 90's at the same time as she uncovered the 'arms to Iraq' scandal. **Andrea's story** draws together the

strands of many **unsolved mysteries** notice the usual **skill tactic of trying to make links to high profile MSN cases** such as the tragic 'deaths' of Princess Diana, Jill Dando and Andrea's gay friend Gareth Williams heartlessly labelled 'spy in a bag'.

Andrea was forced into exile after years of persecution by the British State who want to discredit and silence her.

Read her revealing statement to a UK child abuse Inquiry <http://macurstatement.blogspot.com/2013/07/review-statement-of-andrea-davison-1.html?spref=tw>

Using a corrupt system the State has stolen everything Andrea owns including many thousands of pages of evidence and records exposing Members of Parliament, Judiciary and Police involved in the rape, sodomy and torture of innocent children. **Didn't she photocopy this stuff and store it with trusted others???** The State's haul included the theft of evidence shared between Andrea and Geoffrey Dickens MP now called the 'Dickens Dossiers'

Despite everything they have done Andrea fights on but she needs your help! The Crown Court made it illegal for Andrea to pay her own legal fees. **How is it illegal for someone to pay his/her own legal fees?** This means that her battle to defend herself and **force the State to return her documents** has to be **paid for by well wishers**. **You can't force the State to do anything. You shouldn't ask for money.**

Andrea now working in exile says "In the face of the obstinacy of the British Government I continue to demand justice for every child past and present. To demand justice as the simple unalienable right of every natural person. Friends I work with in the USA, Australia, Belgium, Holland and Germany **tell the same tragic story of cover-ups** by Police, Courts and Politicians. Cover-ups by the very people children flee to for safety. This betrayal of generations of children has to end. Working together **we can stop the systematic exploitation and sexual abuse of our children.**" **Convicted criminal Andrea Davison is a paedophile enabler and protector.**

## Now, take a look here

<https://deeppoliticsforum.com/forums/showthread.php?10589-Andrea-Davison-claimed-she-worked-for-the-security-services#.VDBSP2ddUTI>:

"North Wales woman jailed for document frauds

A WOMAN who claimed she worked for the security services has been jailed for two and a half years for a series of frauds.

Andrea Davison, believed to have fled the country and claimed political asylum, denied 27 theft and fraud offences.

The prosecution said she was running a false document factory after she kept items from a mail drop service, including passports, as templates to recreate documents.

She was convicted unanimously of 26 charges by a jury at Mold Crown Court, who found her not guilty of one charge at the direction of the judge.

Judge Niclas Parry said Davison had made it clear at the start that she was not attending her trial, and information provided to the court indicated she was at an embassy in Ecuador seeking political asylum.

Davison had, he said, been convicted on overwhelming evidence of serious offences of fraud and dishonesty over many years. It was a breach of trust because people who trusted her with crucial personal information as part of a mail drop service had their privacy violated in a calculated and deliberate way.

Judge Parry said he was satisfied that she was a highly intelligent woman who used information she fraudulently obtained to repeatedly create false identification documents for the purpose of obtaining, potentially, many thousands of pounds worth of credit. It had left people devastated.

"The potential for loss was quite enormous," he said.

The court heard how Derby Police economic crime unit raided Davison's Felinheli home after documents uncovered in another fraud case were found to have come from her.

DC Stephen Winnard, commended by the judge for his work, said after the case: "What we found was a document factory at Felinheli, personal documents that could be used in any type of fraud. The end result of her actions is that many people lost their life savings through organised crime groups."

Davison, 62, of Bangor Street, Felinheli, admitted much of what was alleged. But she said she provided herself with false or virtual identification because she was trying to protect herself. People had been trying to kill her because of her previous covert work for the security services, she claimed in police interviews.

But she said a large number of people knew who she was and could verify who she was, including former prime minister Tony Blair. In police interviews she said that she had been deeply involved in the arms to Iraq inquiry. She said she had become involved in the inquiry and many agencies and organisations were trying to kill her, while other agencies were trying to protect her.

Davison confirmed she had credit or bank accounts in other names but said they were all paid up. She spoke of providing virtual realities for other people and told how she ran an organisation called The Association for Former British Intelligence Officers.

Davison denied possessing copies of passports in connection with fraud, making a false Venezuelan passport, offering to supply false ID documents, possessing false utility bills and bank statements and falsifying the register of electors.

She also denied possessing false documents including four stamps purporting to be of official origin including one for the Republic of Panama, possessing a false driving licence in her name with a false date of birth, theft of the passport from the Passport Service, exposing banks and credit card companies to risk of fraud, money laundering, and a trademark offence centred on five watches alleged to have been Breitling watches."
