

Before reading any further, have a read of my pdf – THE BOSTON BOMBING PSY-OP first
http://sharonkilby.co.uk/site/THE_BOSTON_BOMBING_PSY-OP.php

Right, now take a look at the [censored] House Homeland Security Committee Report, dated March 2014, and entitled ‘**The Road to Boston: Counterterrorism challenges and Lessons from the Marathon Bombings**’

<https://homeland.house.gov/files/documents/Boston-Bombings-Report.pdf> I copy/paste snippets, and, as always, comment in red.

Firstly, the report looks like it is the result of new text added to parts of an older report. Notice the different styles of typed text – pages 1, 2, 7, 12, 13, 29, 32, 33, and 34 look like they are pages from an original report. These are the pages where you will find most of the redactions. How curious!

P 3: “**To conduct our investigation the Committee repeatedly requested documents and briefings** to discuss the specifics of Tamerlan Tsarnaev’s history, the extent to which federal agencies knew about the threat he posed and what actions they took, or didn’t take. For several months the **FBI largely ignored or denied the committee’s request for assistance**. FBI representatives asserted that the committee’s requests amounted to “non-oversight activities” **implying that the FBI was therefore not required to comply.**”

If this was about a failure to prevent the Tsarnaev brothers planting home-made pressure cooker bombs, you could feel optimistic that this committee was genuine, and doing all it could, up against an uncooperative FBI. Unfortunately these requests to the FBI for information are just **part of the pretence**.

The Homeland Security report [comic] goes into great detail about how Tamerlan the Terrorist Tsarnaev managed to [as they’re portraying it] *slip through the net*, and what needs to be done to prevent you and I committing acts of terror. To sum up “The committee strongly recommends finding ways to increase and enhance the **information sharing** between federal intelligence and law enforcement agencies and State, local and Tribal [huh?] law enforcement agencies. Based on **official testimony provided [prove it] during open hearings [ha ha; as if]** by current and former government officials, briefings with State and local law enforcement personnel and even the recommendations of representatives from Federal agencies including the Counterterrorism

Center [NCTC], the committee has determined there is extensive room for improvement to be made in both the perception of the FBI's information sharing expectations of its agents and TFOs, as well as the actual information sharing procedures in place. **Moving forward, the committee hopes that more information can be shared beyond JTTFs** around the country with State and local police departments relating to such ongoing assessments.

This includes expanding access to classified networks such as Guardian at the various State and local fusion centres. The Guardian system “serves as the primary database for setting leads to other Field Offices and JTTFs to open new terrorism related assessments or investigations”, and a Guardian lead was initiated for Tamerlan Tsarnaev based on the liaison memorandum from the Russian government. In a briefing provided to Committee Staff DHS coordinator for counterterrorism **John Cohen** noted that while fusion centers have access to the Guardian, DHS is working with the FBI to explore the increasing number of persons on Fusion Centres with access to Guardian itself. Concern regarding State and local access to classified material was echoed by several law enforcement officials during the course of the Committee's investigation, who suggested that improvements could also be made to the timelines of threat reporting made available to fusion centres and police departments. It has been argued that some fusion centres have access to Guardian by virtue of individuals who serve both as part of the center and the local JTTF. Yet, this is not enough to ensure the fusion center has true Guardian access.” [Pages 26 & 27]

Oi; you, **wake up**. Think yourselves lucky you didn't have to type all that crap out; I dropped off three times during the process. Unfortunately I'm going to have to type up everything from this darned 'report' [**joke book**], cos the sly bastard masons have prevented anyone using the 'copy/paste' function. Wonder why. Is it to discourage people like me ripping into it?

If you can't dazzle em with science, baffle them with bullshit; right? This lot really have surpassed themselves in the bullshit stakes; haven't they.

For all you retards out there, listen up, this 'information sharing' bollox is an obfuscatory diversionary tactic by the Ministry of Psy-ops to divert your attention from the fact that there is **no evidence that Tamerlan [or his brother] bombed the marathon, or that he was ever a terrorist - in any shape or form.**

Ok, so what are the lying shits saying? “The FBI was **unable to nominate TT for TIDE** [Terrorist Identities Datafarm Environment] **or TSDB** [Terrorist Screening Datawaste or ‘the Watchlist’] because to do so would have required expanding the 2011 assessment into a preliminary investigation, which investigators concluded they did not have sufficient evidence to do so.” [P 33.] So the FBI contends that the March 2011 Russian letter did not provide enough information to expand their 2011 assessment into a ‘preliminary terrorism investigation’; so that means they settled for a ‘lower level’ assessment, since they didn’t feel that a full or top level assessment was warranted. Why then did they feel the need, **on three separate occasions**, to ask the Russians for additional info? Surely that would be part of a **top level investigation**.

And since they said they were worried that Tamerlan had associations with known terrorists or that he had a desire to join jihad groups, which would signify a very real threat to national security, surely that would warrant a **high level of investigation**. According to the ‘Watchlisting’ guidance the TSDB is an unclassified database and is commonly referred to as the Terrorist Watchlist; one of its primary sources of suspected terrorists is TIDE. A suspected terrorist in TIDE will be added to the TSDB if they meet two requirements: First, the biographical information on the individual must contain sufficient identifying data that person can be matched from a terrorist watchlist. Second, the individual must meet the “**reasonable suspicion standard**.”

<https://www.fbi.gov/news/testimony/tscs-role-in-the-interagency-watchlisting-and-screening-process><https://theintercept.com/document/2014/07/23/march-2013-watchlisting-guidance/>

The truth is **there was no investigation; on any level** [well not in the sense of a *terrorist* threat.] The ‘**passing the buck**’ malarkey is a smokescreen. It’s pretence. This is the ‘**out of the matrix**’ exposure you will not get from the **so-called** Justice for Jaharists. All of them are cointelpro agents, working to protect the official narrative, and to keep Jahar in prison. Please read my sister pdf: ‘The BB Psy-op – a closer look at the work of the COINTELPRO’ for the proof of that.

http://sharonkilby.co.uk/site/THE_BOSTON_BOMBING_PSY-OP_-_a_closer_look_at_the_work_of_the_COINTELPRO.php

Neither the Americans nor the Russians had any concerns at all that Tamerlan or any member of his family might be a terrorist, or a budding terrorist. In fact the American government themselves confirm inasmuch [more on that in a bit.] And since that is the case, **the Russian**

government are obviously involved in the conspiracy to frame the brothers.

Course the reality is, if the marathon explosions had been caused by home-made pressure cooker bombs, planted by a couple of terrorists, the FBI would have had to literally watch them 24/7 in order to prevent such an attack. It wouldn't have mattered if such 'lone' terrorists had contacts with known extremists.

Right, now take a look at congressman Bill Keating's **sham** letter to FBI director **James Comey**, dated July 31st 2013.

http://keating.house.gov/index.php?option=com_content&view=article&id=245:keating-to-fbi-we-need-answers-on-boston-bombings&catid=1:press-releases&Itemid=13 I copy/paste/comment on some of it.

This is the intro:

“Washington, DC – Today, Congressman Bill Keating [who is almost certainly a very high level mason] sent a letter to the new Director of the Federal Bureau of Investigation (FBI), James Comey [who will also almost certainly be a v high level mason], requesting information on the many, still-unanswered questions surrounding the Boston Marathon Bombings. Even if these men are not masons themselves [or members of some other seedy secret society] they will absolutely be beholden to freemasonry.

“It has been three and a half months since the terror attack in Boston, and the FBI has yet to answer the pressing questions that would help law enforcement and legislators better prepare against threats in the future,” said Congressman Keating. There will always be terror attacks whilst freemasonry controls the FBI, law enforcement and legislators. *“As a former District Attorney all of whom have their strings pulled by the masonic master, I understand the sensitivities surrounding an ongoing pretence of an investigation; however, none of the questions I have would compromise the integrity of the investigation into the bombings.* Keating's having a laugh. He wouldn't know the meaning of the word integrity. He doesn't have an honest bone in him. *I'm not looking to place blame.* I am. You Mr Keating are partly to blame because you are part of the conspiracy. *What I am looking to do is identify our security shortcomings and change them.* Liar. You have no such intentions. If you did, you would not be writing bogus letters like this; you'd be exposing the evil Masonic conspiracy that is behind the bombings, and the framing of Jahar. But you won't; because you are a pathetic

cowardly little man. Without forthright information from the FBI, we are prevented from taking the critical steps needed to protect the American public. Keep up the pretence; there's a good little boy. What reward have you been promised for your loyal services to freemasonry? Satan loves you. It is my hope that my fellow partner in crime Director Comey makes this a priority because I intend to pretend to keep demanding answers until I receive them."

In his letter, Congressman Keating specifically outlines several areas where information is still needed. These areas involve the FBI's follow-up to Russian communications on Tamerlan Tsarnaev, information-sharing between the FBI and local authorities, and loopholes identified within the consolidated terror watch lists. How can anyone be proud to sit on a committee and state [p 6]: "Many of the committee's recommendations echo recommendations included in the 9/11 Commission Report released on 26/7/04, which demonstrates that nearly ten years on we have yet to fully address these challenges"? That alone and of itself should make Keating and his committee chums thoroughly ashamed of themselves.

Congressman Keating is the only Member from the Massachusetts Delegation on the Homeland Security Committee. He also serves on the Foreign Affairs Committee, where he is Ranking Member of the Europe, Eurasia, and Emerging Threats Subcommittee, [all of which reeks of freemasonry] which has jurisdiction over issues involving Russia and the Caucasus region. He travelled to Russia on a jolly jaunt the month after the bombings to meet with fellow Masonic fakes calling themselves security officials [who are also only interested in their own security, not the security of the Russian people] there in a pretend response to the FBI's silence [charade].

The full text of Congressman Keating's letter to Director Comey is below."

I now copy/paste/comment on part of that letter:

"I would like to note that while in Moscow on May 30, 2013, I was able to obtain a readout of the March 4, 2011 and April 22, 2013 communications from the Federal Security Service of Russia (FSB) to the FBI and Central Intelligence Agency (CIA). Note that – he was only allowed to read those communications. Despite numerous requests to obtain a copy of and discuss this information, I have not heard anything back from the FBI. This makes the Russians look like the good guys.

Perhaps, **when viewed on paper**, [Keating takes piss taking to new levels; doesn't he] the procedural nature of these questions will become apparent, and the **FBI will agree to assist in closing loopholes** [not that there are any] that may hinder the future identification or capture of dangerous individuals **before lives are lost**. This comes from the lying scumbag who actively supports the **terrorists in power**, and who conspires to frame innocent men; and who gets handsomely rewarded for doing so.

As mentioned earlier, I was **relayed the information contained in both warnings** [the second warning, dated April 22nd, we're told, was in connection with Ibragim Todashev] about Tamerlan Tsarnaev while I was in Moscow. **The March 4, 2011 message, in particular, was quite detailed**. The FBI has admitted to receiving **communications** [note the vagueness; he can't even say whether they were letters, texts, emails, faxes ...] from the Russians and has **reportedly tried to follow up on the March warning twice**. (According to former Director Mueller's recent testimony before the Senate, the FBI followed up in **August and October of 2012**. Notice the vagueness - specific dates are not given, neither are we told what form these 'follow ups' took. Mueller says there were **three** follow up requests for information. <https://www.c-span.org/video/?313323-1/fbi-director-faces-house-judiciary-committee-oversight> [1:03:35]. **When was the third time?**) When I asked the FSB why they didn't respond to the FBI's follow-up inquiries, **the senior, deputy-level FSB officials in the room vehemently denied that any follow-up from the FBI occurred and asked me to provide them with concrete dates and names associated with such requests**. I would ask that the FBI provide the exact dates of any follow-up communications stemming from the US and detail where they were sent. This information can aid in illustrating a lapse within the Russians' own internal communications and provide the opportunity to correct this in the future.

So the Russians are vomiting fury that they're being blamed for this breach in security. They **vehemently denied** that any follow-up from the FBI occurred, such that they wanted concrete dates and names associated with those requests. That being the case, why would they only allow Keating and his party to *read* the letters that they *allegedly* sent to the FBI? Surely they'd be more than happy for Keating to publish them, and expose the FBI as the monstrous murderous liars that they are?

If this little scenario was true, the Russian government would have published those letters already in their own newspapers.

This is bullshit of epic proportions. Folks think about it. Do you think if the Russian government had been genuinely worried about someone committing acts of terror, they would have just sent a letter [which may or may not have got delivered to the appropriate place]? And, **even more ludicrous**, when such a warning letter gets seemingly ignored and goes unheeded, they don't do anything about it, until an atrocity occurs, at which point they want to know details of 'requests for information' which were allegedly sent from the US government. LAUGH OUT FUCKING LOUD. HELL NO. **They would have made jolly sure the American government were well aware of the threat someone posed. A group of delegates would have met up with their US counterparts, and the threat would have been discussed face to face.**

The Russian government are conspiring with the American government to commit terrorist atrocities to further the satanic NWO plans. What we are being subjected to are nasty psychological operations.

The March 2011 communication from the Russians also contained information pertaining to **aliases that Tsarnaev may have used** and indicated the **possibility of him altering his name**. Notice the usual vagueness – 'may have'; 'possibility of him' ... Thought Keating had read those letters! I think someone should publish Tamerlan's passport, showing his name and travel stamps, which would **prove** he didn't use an alias. Is there a mechanism that can override the algorithms in place that **proved inadequate in flagging Tsarnaev's travel to Russia in January 2012**? More obfuscation. What exactly proved inadequate? Where is the **evidence** there were any travel restrictions on Tamerlan? Guess what folks; **the government themselves** state that Tamerlan's A-file "contains **no evidence of governmental monitoring of Tamerlan's travel to or activities in Dagestan (other than routine immigration records** [read that again folks, there was **NO evidence of any governmental monitoring of Tamerlan's travel, OR of his activities in Dagestan**]); **no information concerning any reports of Tamerlan's being an extremist; no information concerning Tamerlan's propensity for violence or any suspected criminal behavior** (other than a standard police records check); and no evidence that an FBI interview of Tamerlan temporarily halted his citizenship application. Indeed, **the file indicates**

that Tamerlan was on track to become a citizen when he died on April 19, 2013 after being shot by law enforcement.” <http://thebostonmarathonbombings.weebly.com/official-document-repository-older-documents.html> ‘State V Tsarnaev 04/11/2014 Government's opposition to motion to compel’ **Whoopsie Daisies. Methinks the Masons keep messing up!** This is what happens when you keep on telling lies. Seriously, if it was true that Tamerlan was a suspect terrorist, do you think he would have been on course to get citizenship? **No chance.** Is there any way to incorporate outside tips [LOL] on name changes into the consolidated terror watch lists? Why would you want to do that? The name on someone’s passport is the only one that should be on a terror watch list, surely. Otherwise a terrorist could just collect a never ending stream of names to operate under!

It is not easy to obtain a passport; there are all sorts of hoops one has to jump through to get one. There are stringent passport controls in place at all airports. If a terrorist gets into a country it is because s/he is *allowed* in.

Incidentally Tamerlan was **applying for a Russian passport** during his six month stay in Russia. <http://abcnews.go.com/International/boston-marathon-bombing-suspects-twisted-family-history/story?id=19012097> Did he get it? Why are there no questions on that???

What this is *really* about is the bringing in of more airport controls under the guise of ‘security’, which will only affect the masses of ‘ordinary’ law abiding folk; which is all part of the tightening of the control grid, in line with NWO furtherance. I haven’t experienced that recently as I haven’t got the money for foreign holidays [or any holiday]; nor do I have the time; however I’ve sure experienced the tightening of security against the phantom terrorist in the UK courts. At a recent appeal I attended with my son Andy I was told to hand over a tiny canister of hair spray that a security guard found when he searched my handbag. How is hairspray a terrorist threat? Don’t answer that. He didn’t find the *real* weapon I was carrying – a recording device. Te he.

Two **more** Homeland Security Committee **lying** witnesses, namely former **Mayor Rudolph Giuliani** and former **Senator Joe Lieberman**, another couple of incorrigible liars, hugely rewarded for services to the Masonic powers cited **more bullshit** about existing “laws” and “guidelines” that they pretended had constrained the pretend Tsarnaev investigation early on. Even **no named** Russian security officials who may or may not have

stated that the FBI had told them a load of old bollocks that “legislation” had obstructed their ability to investigate. Yeah yeah, we got it. The FBI are the bad guys.

The second communication [note the vagueness] from the Russian FSB on April 22, 2013 detailed Ibragim Todashev under “matters of significance.” Did this communication initiate the FBI’s investigation into Todashev? Since his name appeared in a mode of communication considered to be foreign intelligence, was it permitted to be shared with local authorities? Keating loves taking the piss; doesn’t he. If this was not a psy-op i.e. if the freemasons weren’t involved, whoever the senior staff member was who was dealing with a ‘matter of significance’ would have been qualified to decide whether or not it was something that needed to be shared with local authorities.

If need be, I would gladly discuss the sensitive nature of these requests in a secure environment [Masonic lodge]. I thank you for your time and look forward to the FBI’s response my friend; ha ha; nudge nudge, wink wink. Further, I look forward to working with you in your new position and exchanging many funny handshakes. My office remains open to your agency, and I hope that we can work together to facilitate greater communication between the FBI and Congress as we work together on continuing to deceive the public on so-called matters of security and foreign emerging threats that affect homeland defense.”

According to Mueller Tamerlan’s name had come up in two other cases prior to March 2011. **So why aren’t Keating and his cronies demanding to know what the FBI knew about Tamerlan prior to March 2011? Why didn’t Rep. Steve King, during questioning of Mueller at the FBI ‘oversight’ hearing press him for more information?**

As for the murder of Ibragim Todashev in connection, that is going to be a mammoth task to research. That’s next on the ‘To do’ list.

Incidentally, guess what date the Waltham murders were committed [allegedly by Ibragim and Tamerlan]; **September 11th** 2011. Guess what date Jahar became a US citizen; **September 11th** 2012. Talk about **in-your-face blatant Illuminati/Masonic/9/11 symbolism**. The Tsarnaev brothers and their friends were chosen to be sacrificial lambs for an extremely sinister plot - the goriest terrorist attack in the United States since **9/11**.

Back to the report by the Homeland Security committee of Mickey Takers:

P 4: “Despite these challenges, the Committee **persisted in working to obtain the required documentation and information ...** The committee has always **applauded the men and women of the FBI,** along with all other Federal law enforcement and intelligence officials ... Anyone who has read my pdf – The BB Psy-op - knows beyond a shadow of a doubt that *all* the FBI agents involved in any way with the Boston Marathon Bombing is corrupt, and part of the conspiracy to frame Jahar, and promote the official story. Granted this ‘report’ was written before the Tsarnaev trial, and therefore the committee didn’t have the benefit of the court transcripts for the proof of that; however it is clear from, among other things, the phoney letter writing and trips abroad to chat with journalists - which I will come to - that this committee are involved in the conspiracy to protect the official narrative.

The committee shall consider this an appropriate documentation of our **effort to the American people** which we hope will be enough to pacify them until we get to bomb the fuck out of them again and will endeavour to ensure that the recommendations contained herein are enacted to improve the security of the United States Homeland for we freemasonic lickspittle lackeys.

... this report utilizes **media reporting [propaganda] in part [in full]** because **initial information about events was not provided by relevant agencies.**” ‘Initial information’ my arse. ALL their ‘information’ [bullshit lies and Masonic concoctions] comes from the evil bastards who bombed the marathon and framed the Tsarnaev brothers, via their media whores. How much more proof do you need folks; these shitbags are admitting that their ‘sources’ are the very ‘people’ whose arses they kiss. **They’re telling you this is a PSY-OP.**

P 6: “This report examines much of Tamerlan Tsarnaev’s personal history and his interaction with Federal Agencies, including his **alleged** radicalisation, the **pretend** 2011 threat assessment **that we fooled you into believing was** carried out by the FBI and his travel to Russia in 2012. Additionally the committee **are continuing the bullshit by saying it** explores missed opportunities that potentially could have prevented this attack. I’ll say it again peeps; **nothing** could have prevented the attack as it was carried out by the very same Masonic suits who pull the strings of the authors of this ‘report’.

Many of the **Masonic** committee's recommendations echo recommendations included in the **Masonic authored** 9/11 Commission Report released on 26/7/04. This demonstrates that nearly **ten years on we have yet to fully address these challenges**. That translates to the **Illuminati lapdogs** letting us know loud and clear that they will continue to *pretend* to address the 'challenges' that they are responsible for.

The committee of **pretenders** recommends greater information sharing with **masonic** local law enforcement, and expanded access to the **Masonic controlled** FBI's classified Guardian system ... That translates to the committee of **Masonic piss takers** will continue to share information between themselves.

The committee of **pretenders** also recommends that the Memoranda of Understanding between the **Masonic controlled** FBI and other **Masonic controlled** agencies that **we're told** prevent the sharing of information outside of JTTFs [**Masonic controlled Joint Terrorism Task Farce**] without FBI [**Masonic**] approval be amended to foster greater sharing." That translates to **business as usual**.

P 9: "It has not been determined whether the Boston marathon bombing is tied directly to the Caucasus Emirate or the ongoing terrorist activity in Dagestan, Chechnya, and across the North Caucasus. However it is **reasonable to assume** [on what basis?] that TT was at least inspired by their activity and ideology and **driven to take part in the vision of global jihad** [there is **no evidence** of that; **say the government themselves**] which they share with the bogeyman al Qaeda.

Who created Al-Qaeda and the ISIS Terror Group? **America**. Who promotes the **propaganda**, and who funds and benefits from terrorism? Ultimately it's the Illuminati families. See my 'DIGGER IS A SHILL' pdf. http://sharonkilby.co.uk/site/DIGGER_IS_A_SHILL.php Let's just remind ourselves what the former Foreign Minister Robin Cook told the House of Commons: "**The truth is there is no Islamic army or terrorist group called Al Qaeda**. And any informed intelligence officer knows this. **But there is a propaganda campaign to make the public believe in the presence of an identified entity representing the 'devil' only in order to drive the 'TV watcher' to accept a unified international leadership for a war against terrorism**. The country behind this propaganda is the **US**, and the lobbyists for the **US war on terrorism**

are **only interested in making money.**” About a month later he died suddenly in mysterious circumstances.

During TT’s time in Dagestan he would have seen Russia’s fights against these groups first hand and **[though Federal investigators have not found proof of these meetings]** possibly had the chance to meet with rebel fighters from that region which may have helped fuel his alleged radicalisation. Once again people, take note – the FBI **had no proof Tamerlan had met with rebel fighters.** This ‘report’ is **based on insinuation, slander and baseless accusations.** As another hypocritical spineless nefarious loathsome lying NWO lackey **Secretary of State John Kerry** noted in Brussels shortly after the bombing despite being totally devoid of any basis in which to utter this slur: “[Tamerlan] learned something where he went and came back with a willingness to kill people.” Comments from politicians, celebs etc **SHOULD NOT** be in a government’s **FACT FINDING** report.

P 10: “According to some **media reporting** [smears] **friends** [so-called] of Tam’s wife Katherine Russell **[so not Katherine herself]** claim as time went on he took on an increasingly **extremist** [unevidenced] view of Islam, and **allege** [that word again – *allegations* only] that he became **violent towards her.** Has anyone heard this from Katherine? Me neither. In fact according to this ‘Motion’ [p 7] <https://www.scribd.com/doc/297227294/Doc-1344-4-24-2015-Govt-Motion-to-Exclude-Exhibits> where there is mention of an exhibit [known as the Saisselin email] in which Amanda Saisselin claims TT physically abused Katherine Tsarnaeva, although **she admits she did not see any abuse and is merely speculating** about what happened based on something she *believes* she heard, “Katherine Tsarnaeva has consistently denied that Tamerlan Tsarnaev ever physically abused her.” It is also made clear in the ‘Motion’ that the email makes highly inflammatory charges – such as that TT has a “history of being violent” – without revealing whether that is personal knowledge, rumour or just calumny. TT was **arrested on charges of domestic abuse for slapping a different woman Nadine Ascencao.**” Since when does someone get arrested for *slapping* someone? Once again there is **no evidence** to support that claim. According to the MSM **slanderers** “**A police report from July 2009** [yeah ok; publish it then] indicated that he slapped Ms Ascencao during an argument at their home in Cambridge, Massachusetts. She called 911 to complain, but although Tsarnaev was **arrested and charged with assault the charges were dropped before trial.**” **And:** “While Ascencao **would not say when she dated Tsarnaev or for how long** [why ever not?], **records** [what

records? Show us] also show they lived together for a short time at an apartment on Norfolk Street.” <http://www.dailymail.co.uk/news/article-2316430/Boston-bomber-Tamerlan-Tsarnaevs-ex-girlfriend-Nadine-Ascencao-says-beat-dressing-like-Westerner.html>
<http://hollywoodlife.com/2013/04/23/tamerlan-tsarnaev-abuse-violence-katherine-russell-slut-prostitute/>
<http://www.dailymail.co.uk/video/news/video-1007682/Ex-girlfriend-alleged-Boston-bomber-speaks-out.html>
<http://www.dailymail.co.uk/news/article-2313484/Boston-bombing-suspect-Tamerlan-Tsarnaevs-ex-girlfriend-Nadine-Ascencao-revealed.html> I think Nadine should produce the **evidence** of her claims.

If you take a look at the images here

https://www.google.co.uk/search?q=Nadine+Ascencao&hl=en&tbm=isch&imgil=HbUkHmeNnZXCsM%253A%253BCgG5NIIKWfC5zM%253Bhttp%25253A%25252FH%25252Fdailyentertainmentnews.com%25252Fbreaking-news%25252Fnadine-ascencaonadine-asceucal-boston-bomber-tamerlan-tsarnaevs-college-ex-girlfriend%25252F&source=iu&pf=m&fir=HbUkHmeNnZXCsM%253A%25252CCgG5NIIKWfC5zM%25252C&usq=_3aiuqN2QzK5kOnjsWFNfyxoJFao%3D&biw=1164&bih=848&ved=0ahUKEwjg5Y2V8NnOAhWBnRQKHVqlAD0QyjclKQ&ei=THu9V-

http://www.uscis.gov/sites/default/files/USCIS/About%20Us/Electronic%20Reading%20Room/A-Files%20of%20Interest%20-%20Static%20Files/Tamerlan_Tsarnaev.pdf#page=227 you find that TT was arrested in 2009; however as you can see there is scant information available; most notably, of the text that is there, all of it is readable, bar the bit typed under ‘Offences’. Is that deliberate obscuring of information? Scroll down to page 9 of his ‘Petition for Name Change’ https://www.uscis.gov/sites/default/files/USCIS/About%20Us/Electronic%20Reading%20Room/A-Files%20of%20Interest%20-%20Static%20Files/Tamerlan_Tsarnaev.pdf#page=227 and we see that the ‘outcome’ was “dismissed”. There are also photos of what looks like Nadine sparring with TT in the gym; however that does not mean that they were in a relationship. She hasn’t shown any photos of them as a couple.

And was she required to testify at Jahar’s show trial? Doesn’t look like it. I guess the Masonic collaborators were protecting her from perjuring herself too.

P 11: “In **2011** the FBI received a letter from the Russian Federal Security Service [FSB] regarding TT. **Back to *that* letter; notice the vagueness. We are not told the specific date of the letter; nor the date it**

was received. In the letter the Russian government expressed concern that he had become radicalised and that he might return to Russia and join extremist groups there. **While lacking compelling derogatory information on exactly why he posed a threat**, the letter contained **detailed biographic information on TT and his mother**, including physical addresses, marital status, online social media profiles, and discussed his history as a boxer. Yet again, here is **more proof** – from the psy-oppers' very own mouthpieces – there was **no real evidence** that TT was a threat.

Considering the fact so many people were affected by the Boston marathon explosions and its aftermath; the fact that most people strongly distrust the authorities, if the US government want to go some way to convince the public that they *can* be trusted, it is incumbent upon them now to **publish that letter**, in full and unredacted. They are also obliged to publish all the information they say they have with regards to the two previous occasions that the FBI say Tamerlan came to their attention. The letter **requested that the FBI notify the Russian government** if TT attempted to travel to Russia. Yeah ok. The Russians were so worried about this terrorist that they couldn't be arsed checking if the Americans had even received their letter; let alone make arrangements to get together to discuss how best to deal with terrorist Tam. And do the Russian government really need the American government or any foreign government to warn them about terrorists [or people who might be *thinking* about becoming terrorists] possibly entering their country? Do they not have a good enough passport control system in place to stop any undesirables setting foot in Russia?

In response to this letter the FBI Joint Terrorism Task Force [JTTF] in Boston initiated an assessment [notice no date is given stating when the [cough] assessment started] to determine if TT did indeed pose a terrorist threat.”

P 12: “In the course of their inquiry, the Boston JTTF checked **US government databases** and other information to look for such things as derogatory telephone communications, possible use of online sites associated with the promotion of radical activity, associations with other persons of interest, travel history and plans and education history. The investigators then interviewed his parents and TT himself. The **FBI did not find any evidence of terrorist activity**, and this information was provided to the Russian government in the **summer of 2011**. Notice no details given, and no dates specified. Again, since the American government have much to do in order to convince a cynical global

population that they are not a bunch of lying thieving evil murderous criminals, they are now under obligation to publish all their responses to the Russians.

The unnamed FBI case agent on the Boston JTTF had the no named Customs and Border Protection [CBP] officer assigned to his unknown members of his team enter a TECS record in order to provide notification of Tamerlan Tsarnaev's international travel. TECS is owned and managed by CBP which is just another Masonic body and is its principal law enforcement and anti-terrorism database."

P 13: "After the FBI's [cough] assessment of Tamerlan Tsarnaev found no links to terrorism the Boston JTTF officially closed their assessment on June 24th 2011. The FBI also requested that the Russian government provide "more specific or additional information" that would indicate why [TT] posed a threat. If there really was an assessment that had closed, there would not be ongoing enquiries. So if there were requests for more information, the assessment had not closed. Federal officials have stated that the Russian government did not reply. The script says that the Russians say there was no follow up from the Americans. Course if the American government had felt the need to request information from the Russians, they would not have been content to have one of their inquiries ignored, let alone three; they would have telephoned or met up with Russian officials, and discussed the matter.

Since the American government have been exposed as lying about knowing the Tsarnaev family; and since it is very evident that the Tsarnaev brothers were fitted up for crimes they had nothing whatsoever to do with, I think **the government have a duty to the American taxpaying public to publish – in full and uncensored in any way – the A-files that they have on all the Tsarnaev family and their friends.**

TT travelled to Russia in January 2012 and returned to the U.S. in July 2012. Federal investigators are still working to piece together details of his visit, [how difficult can that be since they have dates of travel which are only 6 months apart?] but FBI officials stationed at the U.S. embassy in Moscow informed the Committee that before Anzor Tsarnaev arrived in Russia in May 2012, TT spent time with other family in Makhachkala. There are conflicting media reports regarding the amount of time they spent together and the possibility that they may have travelled to other areas – either to other parts of Dageston or into

warring **Chechnya**.” Where is the **evidence** he went to Chechnya? Why even mention it? This is more innuendo that TT intended joining rebel fighters. And why would a House Homeland Security Committee even make reference to a media report, since it is a well known fact that the media are not a reliable source for factual information? The purpose of the committee is for them to *do their own investigating*. In any case, **why would Tamerlan and his family even be in the news?** I think the government should **publish all these media reports** – just to prove to us sceptics that this Homeland Security report is the result of a **genuine investigation** by a committee, and not a bunch of **piss taking lying bastard masons, in service to the real terrorists, who are busy making things up on the hoof**. This [cough] report is just more confirmation that the evidence for Tamerlan being this dangerous jihadist he is painted is about as flimsy to non-existent as it gets.

P 14: “While the facts presently known about **TT’s travel do not indicate that this attack has connections to an external terror network**, they do raise significant questions. Neither do they indicate that this attack had any **connections to Tamerlan** either. At least this report reflects *some* truth - that TT did **not have terrorist contacts, and neither did he seek any**; because if that was not the case the **facts would already be aired** in this report. Instead, and as said – repeatedly - we do not have facts; we have supposition [as is always the case where **dirty dealing freemasons**, who are intent on **framing** someone, are concerned.] For example, it is possible that TT’s travel provided him with an opportunity to make contact with militants in the region. Well of course it’s *possible*; it doesn’t make it factual. I should imagine it would be possible for any of us to make contact with militants if we so choose. This report is supposed to be about **FACT FINDING**, not more of the same **filthy propaganda**. TT also reportedly prayed at the al-Nadira mosque during his time in Makhachkala. No *proof* of that even. Writing for the propaganda rag [ALL news media is propaganda] **Wall Street Journal**, Alan Cullison alleges [i.e. not *proven*] that the mosque’s founder Kachilaev also aided Zawahiri “during a 1997 trip to Dagestan.” What’s that got to do with the price of bloody onions? Furthermore **some media accounts report** [they **do not report; they propagandise**] that while in Dagestan TT made contact with Nidal, a known insurgent in the region, [evidence please] and perhaps [maybe, maybe not ... with other *unknown*, maybe phantom terrorists] others.

Nidal was reportedly a recruiter for Islamist insurgents in Dagestan [so no *proof* provided for that either] and some media reporting suggests he and TT could have met several times in 2012. So some propaganda shit

rags have likely spread some rumour that these two met up possibly several times during 2012. But there's no **evidence** that any news outlets reported this **during the time Tamerlan was in Russia; let alone any evidence that Tamerlan met with Nidal even once.**

Though on the run from Russian authorities during much of TT's time in Dagestan, a former unknown Russian investigator familiar with Nidal [where's the evidence for that please?] noted ??? that he would probably not have been afraid to emerge from hiding and that the two could have met. Spoken like a fuckin piss takin mason. So Tamerlan *could* have met a guy who *might* have been a recruiter for Islamist insurgents, who was *alleged* to be on the run ...

Notice the end of page references to media reports; they're all dated *after* the Marathon bombings. Where are the media articles about Tamerlan *prior* to April 15th 2013? Where are the news reports **covering the period that Tamerlan was in Russia during the first half of 2012?**

In January 2014 **Chairman McCaul** and **Representative William Keating** travelled to Russia on a jolly junket, paid for by the long suffering American taxpayers and met with **investigative journalists** [propaganda merchants; unless I see **evidence** to the contrary] who had spent time in Makhachkala, Dagestan, **looking into TT's time there.** So **who are these journalists, and where are their news reports from the period covering the time Tamerlan visited Russia???** These **sources** [who? Name them] **reported** that he had attempted to join the **Chechen fighters**, [**evidence** please] and met with Nidal [**evidence** please]. These sources **further allege** [at least the Chair and Keating admit that these claims are all just *allegations*; that there are no hard facts] that TT was **rejected by these groups.** What groups?

So McCaul and Keating met with unknown people who call themselves 'investigative journalists' but who can only make *allegations*. Where are the details/reports/recordings of these meetings with journos???

However according to **briefings** that will remain private because they don't exist provided to **Committee staff** [these piss takers can't even name their own members that they want us to believe took these briefings!] by unknown officials at the U.S. embassy in Moscow, official investigators who will remain anonymous. [And what is an official investigator anyway?] **have uncovered no evidence of such a relationship between Tamerlan and Nidal.** And yet again, READ THAT AGAIN FOLKS - **there was no evidence of any association between Tam and an alleged terrorist.** So what was the point in telling

us the above load of old bollox? Woops, forgot; it was all about **sowing the seeds of propaganda**. Furthermore, unidentified investigators have **determined TT likely did not attempt** “go into the forest” – a euphemism for to **joining Chechen rebel groups**.” So that sounds pretty definite then; **TT didn’t try to join those rebel fighters**. Are you people paying attention? The **House Homeland Security committee are telling us** that Tamerlan Tsarnaev **didn’t** try to join any insurgents; he **didn’t** have any links with terrorists... It is **documented in court papers** that the **Government had no information concerning any reports of him being an extremist**. FOLKS, HE WASN’T A BLOODY TERRORIST, AND HE WASN’T PLANNING TO BECOME ONE.

P 15: “According to at least one Russian **media report** [piece of propaganda] TT has also been **linked to** Canadian **extremist** Plotnikov. Writing for the Russian paper *Novaya Gazzetta* **journalist** [propaganda mouthpiece for the Russian State] Irina Gordienko **alleges** that **Russian authorities** were **first** alerted to TT after finding evidence of “**frequent contacts**” between the two on Plotnikov’s computer. Once again, it’s just an allegation; no facts; no evidence – no official documentation or anything else to back up this claim. And as usual, there is nothing to show that this was even ever reported anywhere *before* the marathon explosions occurred. And notice the usual vagueness; why doesn’t this Russian journalist give us some **details**, for example, the **date** that the Russian authorities supposedly first became aware that Tamerlan was a terrorist threat; the number of [and dates of] email or other exchanges between Tam and Plotnikov; the sort of things that were being discussed between the two ...

FBI Officials who will remain anonymous in Moscow **indicated** that **electronic communication** [notice the **vagueness**; why don’t they just say ‘emails’?] between the two **may have been** or may not have been collected. There is then a redacted line. These officials also reported that investigators **have determined it is unlikely the two met face to face** [so how did they know that?] while TT was in Dagestan. If it was true that Tamerlan had been in communications with Plotnikov, the **evidence for that would be in this ‘report’**. **The committee would have been able to give us details of all emails or other communications between the two**. And if they couldn’t **due to lack of cooperation by the FBI**, they would have stated so.

If this committee was genuine we would not be continually subjected to this sort of woolly language, constant obfuscation and ambiguity.

While the many specific details of TT's radicalization remain somewhat vague [exactly; case closed] some known details begin to paint a picture [pictures are no bloody good; we need hard evidence]. A YouTube account under his name showed that he viewed multiple Russian-language videos on Islam [and?] and even compiled playlists of jihadi videos. The rest of the page is about videos he allegedly viewed. So frikkin what. That doesn't mean he had any intention of becoming a jihadist. His family insist he was not a religious fanatic. In this video <https://www.rt.com/news/tamerlan-tsarnaev-relative-boston-160/> Tamerlan's aunt Patimat Suleimanova says he was not a religious fanatic; he was just curious about religion, and interested in Islam. According to the propaganda whores "Boston Marathon bombing suspect Tamerlan Tsarnaev "vaguely discussed" jihad during a 2011 phone conversation with his mother, according to an unidentified U.S. official who described the recording to the Associated Pressstitutes. The call, taped by a Russian government agency that shall remain nameless, reportedly did not include any mention of a plot inside the U.S. The recording is among data recently sent by the Russian Federal Security Service, or FSB, to the FBI to aid its investigation of the Boston Marathon bombings." Course, that recording will never see the light of day. It probably doesn't exist. And even if it does, all it proves is that he had 'vaguely discussed' jihad. So What? <http://www.npr.org/sections/thetwo-way/2013/04/28/179611079/tamerlan-tsarnaev-spoke-of-jihad-with-mother-reports-say>

One thing is certain, there is absolutely no evidence that Tamerlan Tsarnaev had anything to do with the Boston marathon explosions, or that he shot and killed Sean Collier, or that he kidnapped a chink and stole his SUV or that he shot at policemen ...

He was however very well known to the American and Russian governments. Why? The Boston marathon bombing was carefully pre-meditated and planned – with the collusion and co-operation of both countries. Whoever was behind it needed a lot of time to set up patsies. They needed to choose their patsies carefully and they needed to know these victims and their families very well. Who knows whether Tamerlan was an FBI informant, or whether the FBI were harassing/trying to entice him to work for them. His mother Zubeidat says she was suspicious of the constant FBI surveillance her family was subjected to over the years. She says FBI agents told her Tamerlan was a nice, intelligent

boy; a strong boy; a leader, and they **asked her if he could** get involved with any radical organisation.

<https://www.youtube.com/watch?v=wdoTsiSk7Yc&nohtml5=False> It is likely that Tam was working for them; after all in order for the criminal conspirators to frame the Tsarnaevs it was necessary for them both to be at the marathon that day. My guess is Tamerlan told little bro to wait for him by the Forum restaurant for a few mins while he had something to attend to elsewhere. As for the first bomb, we don't even know if Tamerlan was actually standing in the vicinity of that blast as there is no real evidence of that. We'll probably never know what really caused those explosions [they may or may not have been caused by pressure cooker bombs] or *who* caused them. One thing is certain, even if Tam was told [by an FBI handler] to be at the marathon that day [and to bring Jahar with him] **that does not prove he carried a bomb or detonated one, or that he even knew that there would be two deadly explosions on Boylston St that day. Likewise there is no evidence that Jahar carried a bomb, detonated one or even knew there would be two deadly explosions on Boylston St that day.**

One playlist included a video **since deleted** [was it ever there in the first place?] entitled 'Rabbanikaly ...' That name is **reportedly** [once again it's not a fact, just an allegation] the alias of the Dagestani **terrorist** Dolgatov."

According to that great bastion of truth CNN: "Soon after returning from a long visit to Russia, Tsarnaev creates a YouTube channel with links to a number of videos. **Two videos under a category labeled "Terrorists" have since been deleted. It's not clear when or by whom.** So where did CNN source that info? Did they just notice these vids were there one minute and gone the next? Looks like it's not clear whether any 'terrorist' video was ever on Tamerlan's YouTube channel in the first place.

Tsarnaev also **appears** to have **posted and then removed a video of a militant named Abu Dujana, a jihadist leader** who was later killed by Russian troops." <http://edition.cnn.com/2013/04/21/us/tamerlan-tsarnaev-timeline/> *Appears* to have. So yet again no real evidence of anything Tamerlan is accused of; **just a lot of baseless accusations, which have been spread far and wide by the MSM NWO gatekeepers.**

P 16: “There is no evidence that TT and Dolgатов met, however **it appears** TT was intrigued by the jihadist rebels [**evidence please**] in the Caucasus and **perhaps inspired** [**perhaps not**] by their general ideology.

Tsarnaev family members **allege** [*who alleges?*] that a man known as ‘Misha’ further shaped TT’s views, although **unknown investigators** have **dismissed that Misha played a role** in this attack. The real murderers and their protectors can’t have anyone else complicating matters and bugging up the script – it’s solely the Tsarnaev brothers whodunit; you understand. A man claiming to be Misha insists that while he knew TT in 2009 he was not influential in his **alleged** radicalization. So who the fuck is Misha? Well we only have ‘information’ from the Masonic piss-takers in power, via their media lapdogs. If Misha is indeed saying what he is quoted as saying, he is just another lying piece of shit. I quote from the ‘NYR Daily’: “Allakhverdov said he had known Tamerlan in Boston, where he lived until about three years ago, and has not had any contact with him since. He **declined to describe the nature of his acquaintance with Tamerlan or the Tsarnaev family**, [*why?*] but said **he had never met the family members who are now accusing him of radicalizing Tamerlan**. So who is accusing him of radicalizing TT? It seems only uncle **Ruslan Tsarni**. He’s the one who called his nephews ‘losers’ and who told Jahar to turn himself in and ask for forgiveness, on the same day Jahar was ‘found’, close to death; when Tsarni could not have known at that stage whether or not Jahar or Tamerlan were guilty of bombing the marathon.

https://www.youtube.com/watch?v=by_CJrD7r_c

<https://www.youtube.com/watch?v=nZ3XV0fOhRs> **Elmirza Khozhugov** says **maybe Misha suggested to him some radical ideas** [that’s conveniently vague!] <https://www.youtube.com/watch?v=Sc1xPBj9A80> He is the ex-husband of Tamerlan’s and Jahar’s sister Ailina. He is also the brother of Ruslan’s wife. Zubeidat saw Misha as a good Muslim, not a radicalizer. <https://www.youtube.com/watch?v=VyzkiHUPJNo>

He also **confirmed he had been interviewed by the FBI and that he has cooperated with the investigation: I’ve been cooperating entirely with the FBI. I gave them my computer and my phone and everything I wanted to show I haven’t done anything. And they said they are about to return them to me. And the [unnamed] agents who talked told me they are about to close my case.** My arse. Misha, nor anyone else was investigated. The FBI know who bombed the marathon. They’re part of the conspiracy. They know it wasn’t the Tsarnaev brothers. The Masonic controlled media poodles just *parrot the line* that he was investigated; and cleared. **An unknown FBI spokesman in Boston declined to comment on an ongoing stitch up case.** No-one from the

FBI was asked to comment. That's just more pretence. Allakhverdov's statements, however, seemed to bear out **recent reports** [what reports?] that the FBI **have not found any connection between "Misha" and the bomb plot.**" And if there was a connection, **we most certainly would not know about it.**

In a public statement, the Islamic Society of Boston Cultural Centre reported that TT attended prayers at this mosque from time to time. **On multiple occasions he engaged in shouting matches with preachers at the mosque, and was asked to leave.** These disputes allegedly arose from Tamerlan accusing the preacher of being a non-believer and "hypocrite" who was "contaminating people's minds" for encouraging worshippers to celebrate American holidays." Perhaps Tamerlan had good reason to pick a fight with these preachers; maybe his accusations are true. According to CNN there were only **two** occasions [not multiple ones] - on 16/11/2012 and 18/1/13 - when he challenged a preacher. He argued his viewpoint and left. No-one needed to throw him out. He wasn't banned. CNN say: "At future prayers, he is quiet."

<http://edition.cnn.com/2013/04/21/us/tamerlan-tsarnaev-timeline/>

Anwar Kazmi, a member of the mosque's board of trustees, talks only of the 'Martin Luther King' 18/1/13 incident.

<http://www.dailymail.co.uk/news/article-2313270/Tamerlan-Tsarnaev-Boston-bombers-rants-mosque-non-Muslim-holidays-non-believer-MLK-Jr.html>

P 17: "... the attack resulted in three deaths and approximately **260 injuries**. That figure seems a tad exaggerated. From all the footage published, there seems nowhere near that amount of people injured. **Initial reports** suggested **possible additional explosives**, in particular at the JFK library, but those reports were ultimately deemed **inaccurate**. What is meant by 'initial reports'? Presumably 'news' media reports. Why is this even mentioned in this report since it was not based on anything but mere rumour? Scrap that; I've already answered it.

Shortly after the attack, the Boston Police Department [BPD] detained a Saudi National who was **reportedly behaving suspiciously** near the site of the explosions. The Saudi is Abdulrahman Ali Alharbi <http://theislamicmonthly.com/exclusive-interview-with-the-saudi-man-from-boston/> Who accused him of behaving suspiciously? What 'suspicious' things was he doing? This individual was **questioned for nearly five hours and voluntarily allowed BPD officers, as well as FBI and Bureau of Alcohol, Tobacco, Firearms and Explosives [ATF] agents to search his apartment.** Why do we need to know all this? Although his

actions and the resulting questioning led to speculation [by who, and why?] regarding his involvement, the Saudi national was later confirmed by BPD **not to be a suspect.**” And guess the source of this ‘information’ ... The **Boston Herald**. And I’ll ask again, who do the Boston Herald, and **all** ‘news’ outlets, work for? I’ll repeat it - again and again – they work for the *real* terrorists; the ones who bombed the marathon, and who killed Collier, and Tamerlan, and who shot Dic Donohue, and who framed Jahar ... Once again this story about the Saudi is not factual, it is speculative. Why is it being regurgitated in this ‘investigative’ report?

I’ll ask again, why is anything other than the facts being published in this Homeland Security ‘investigative’ report? Why are all the committee’s sources thus far from the ‘news’ media? Those sources are provably deliberately inaccurate and unreliable. This Homeland Security committee is supposed to be finding out and reporting on the facts, not repeating rumour and speculation.

I’ll answer my own questions. The Boston marathon bombing [and related events that we’re told happened] is a PSYCHOLOGICAL OPERATION. It is PSYCHOLOGICAL WARFARE. It was planned and executed by the Illuminati/Masonic elite. Please read the first few pages of my ‘BB Psy-Op’ pdf to really grasp this. The ‘suspicious’ Saudi [I’ll call him Abdul] was just another red herring put out by the **real terrorists** via their media lackeys to enable the cointelpro network to divert you from ever finding the right rabbit hole to burrow down. Remember in all psy-ops there are many *conspiracy theories* which are actually red herrings designed to send the genuine armchair sleuths looking into the official narrative down the wrong path. This way the people behind these atrocities are able to keep the vast majority believing their fiction, whilst keeping the ‘tin foil hats’ away from finding out the real truth.

The more red herrings they can throw at you the more successful their psy-op. If the marathon bombing was not a psy-op but was a terrorist attack committed by people who have nothing to do with the government [or more accurately freemasonry] do you think Abdul would have got a mention in the newspapers? Of course not; he would have been investigated as a possible suspect, but there would have been no publicity. Always remember, anything that is in the ‘news’ media [other than ‘unimportant’ news, such as celebrity stuff, sport, entertainment etc] is there **only on the approval of establishment freemasons**, as part of the NWO agenda.

I'll just add that the pys-oppers write the script as events unfold, while all the time looking for opportunities for furtherance. Hence why someone like Abdul may be completely innocent and genuine, as I think he is [as opposed to being 'in' on the charade i.e. a Masonic puppet.]

P 18: "Immediately following the explosion the FBI, Massachusetts State Police [MSP], local police, and ATF began to make it look as if they were investigating the attack. At 4:50 pm The Federal Aviation Administration [FAA] issued a ground stop for Boston Logan International Airport, and restricted the airspace over the site of the explosion. Concurrently investigators examined video and photographs of the marathon route from before, during and after the bombing. Doesn't it just grind your gears that all your hard earned taxes are paying for this shower? It's just jobs for the boys, don't ya know. And where did our intrepid investigating committee garner that revelatory information? Well from the newspapers of course.

Days into the pretend investigation, Fed thugs calling themselves investigators said that they had identified video evidence of the two totally innocent young men they were told to label suspects they had to claim that they believed responsible, and eventually had to pretend that they had turned to the public in an effort to pinpoint the identities of the unknown individuals. By the time this **committee of idiots** got on with pretending to investigate their paymasters it was public knowledge that the FBI knew the identity of the Tsarnaevs, **so why would they expose themselves as complete imbeciles by regurgitating that well known lie?** I'll answer that too. They are not acting independently; they are mouthpieces for the psy-oppers, and therefore have no choice but to publish what the Masonic master orders. I've said it many times, when you sell out to the masons, you have to say and do what is expected of you; and if that means you looking a complete tool or asshole; so be it. At 5:10 pm on Thursday 18th April 2013 investigators [phonies] released pictures of the two they were told to label suspects later said they had identified as the Tsarnaev brothers. This touched on what the piss takers in power pretended was a day-long man hunt and Boston area citizens were later asked [obliged] to remain in their homes throughout the following day. The FBI's special agent in charge [SAC] Richard Deslauriers a most despicable creature, lied his head off when he warned the public that the two innocent men labelled suspects were considered to be armed and extremely dangerous. Around 10:30 pm on April 18th Massachusetts Institute of Technology [MIT] campus police officer Sean Collier was found with multiple gunshot wounds and pronounced dead at Massachusetts General Hospital. He had been

murdered by the evil bastards who pull the strings of this brown nosed committee of cowards. Investigators [fawning cowardly liars] were told to say that they believe that the Tsarnaev brothers killed Officer Collier in order to steal his gun.”

P 19: “Officers of the Watertown Police Department [WPD] approached the vehicle **unaware that the suspects in the car theft were also the bombers**. Not that they were the bombers, and not that they [or anyone else] stole the chink’s car; but let’s not worry about that right now. **Back to the script**. We’re told two armed and extremely dangerous terrorists are on the run after having caused carnage at the marathon three days prior. Police are naturally on high alert. A call comes in from a desperate chink who reports that he’s just been carjacked, held hostage, and taken on a terror ride at gunpoint. Now, what did Dun Meng tell the police? Check out the surveillance video [exh 752.mov](#) At 2:20 mins we hear him saying, **“They said they did the marathon explosion.”** Whoopsies. So, um, did the police just forget to inform the WPD?

The suspects threw improvised explosives, including pipe bombs and pressure cooker bombs **from their vehicle**. That is not corroborated by any of the pigs or ‘eyewitnesses’. Neither is there any mention of bombs being chucked out of a car by Middlesex District Attorney Marian Ryan in her detailed ‘report’ [crock of shit]; or even by Weinreb. Nor is it stated in the indictment. So how did the Homeland Security investigatory team determine this? They **read it in the *Daily Mail***, of course, under the title **‘They hurled a pressure cooker bomb as a decoy’**.

Some accounts suggest that TT **may** also have been dragged a short distance by his brother’s allegedly stolen vehicle.” So *who* is saying that Tamerlan *may* have been dragged by Jahar’s allegedly stolen car? And where is the evidence for that? So Tamerlan may have been dragged by *someone else’s* car ...

P 20: **“Several weeks after** the bombing when the masons realised the public weren’t buying their shite and they had to come up with even more outrageous lies about Jahar which would be dutifully disseminated by several media outlets [Masonic run lying scum] who reported that a handwritten note had been scrawled on the interior of the boat by their **Masonic paymasters – the *real* terrorists ...** This note **allegedly** referred to the victims of the marathon bombings as ‘collateral damage’ and attempted to justify the attacks ...

Additionally Dzhokhar reportedly confirmed to investigators during questioning that he and his brother at one point intended to drive to New York City and detonate their explosives in Times Square. Reportedly confirmed? Huh? Isn't the idea of this investigation committee to **find out the facts** i.e did he or didn't he tell the FBI thugs that he and TT intended to bomb New York? Er I think I answered that too already. Fortunately their shoot out with local authorities which we on the Homeland Security committee, otherwise known as a bunch of arsewipes, know is a completely fabricated account; but since we earn our bread and butter continuing the pretence, and because we're too cowardly to rock the boat, we'll continue to stay silent on the matter prevented this from being possible."

P 21: "On Wednesday May 1st 2013, investigators [lickspittle lackeys] announced the arrest of three additional persons associated with Dzhokar Tsarnaev. One of the individuals Robel Philipos has been charged with **lying to investigators**. Just give me a few moments while I pick my jaw up from the floor. These bastard masons just keep taking hypocrisy to new levels; don't they? I can't wait for the day ALL the criminals involved in this humongous conspiracy [including the Homeland Security Committee dirt bags] get charged with lying, being accessories to murder, perjury, libel, perverting justice, corruption ... Two others Azamat Tazhayakov and Dias kadyrbayev are citizens of Kazakhstan who had come to the United States to attend school. The two are accused of disposing of a backpack and a laptop belonging to Dzhokhar Tsarnaev.

I have quite a bit to say about how both Jahar's and Tamerlan's friends have also suffered abominably unjust treatment, and will be doing a pdf on that in due course. For now you can have a taster in my pdf on The Jansport Backpack

http://sharonkilby.co.uk/site/THE_JANSPORT_BACKPACK.php

Another individual Ibragim Todashev, was questioned by authorities multiple times for his connection with Tamerlan Tsarnaev, under suspicion the two of them may have committed a triple homicide on September 11th 2011. The crime took place on the **tenth anniversary of the 9/11 terror attacks**. Symbolic or what! While being questioned Ibragim Todashev was **shot and killed** when he **reportedly** attacked FBI investigators.

The bodies of Brendan Mess, Erik Weismann, and Raphael Teken were discovered in three different rooms of Mess' apartment on the morning

of September 12th 2011, with their throats slit, and covered in marijuana and cash. The three were all involved in martial arts, and Tamerlan once reportedly described Brendan as his 'best friend'.

Todashev is reported to have been friends with Tamerlan. **Uncertainty** still surrounds public accounts of the 2011 murder yet Todashev reportedly **acknowledged he and Tamerlan were responsible** shortly before his death." Well it does not look like that is true as the FBI are refusing to publish the recordings of his interview, or the statement Todashev was allegedly writing.

As said I will have to leave Ibragim Todashev to another day too.

For now, take a look at the court transcript

'ACLU sue Carmen Ortiz and related others 04/10/2014'

<http://thebostonmarathonbombings.weebly.com/official-document-repository-older-documents.html>

I copy/paste some of it, and comment in red, as always.

"**Ibragim Todashev** was shot and killed while reportedly being questioned by a "Massachusetts Investigative Team" comprised of a **Boston FBI Special Agent and two Massachusetts State Police Troopers**, at least one of whom may have been assigned to the JTTF. Not that it matters if any of them were assigned to the JTTF, **all of them answer to the same Masonic master**. The Team reportedly questioned Todashev about a September 2011 triple homicide in Waltham, Massachusetts, and about the April 2013 bombings at the Boston Marathon

There have been **conflicting media reports about Todashev's death** all of which is propaganda, put out by the **Masonic machine**, many of which cited **anonymous - obviously law enforcement sources**. Meanwhile, the government's public statements about the shooting have been **conclusory and unsupported by any meaningful disclosure of documents**.

For example, on March 25, 2014, the U.S. Department of **inJustice's pretend** Civil Rights Division released a "Report on the Death of Ibragim Todashev," which concluded that "**the evidence does not reveal a violation of federal criminal civil rights statutes or warrant further federal criminal investigation**." It warrants a criminal investigation by **virtuous** investigators i.e. people who do not belong to any secret society, and who are **UNAFRAID TO CHALLENGE THE MASONIC**

SHADOW AUTHORITY. Yet this 16-page report **disclosed only one document:** a drawing of the first floor of Todashev's apartment. **That report is here**

<https://s3.amazonaws.com/s3.documentcloud.org/documents/1096593/civil-rights-division-todashev-report.pdf> Curiously it is unsigned, and we have no idea who the author is. As said I'll comment on that and will research the Todashev murder when I get the time to really get my teeth into it.

The public and the media have posed serious questions about whether the killing of Todashev was justified. The media *pretend* to question the killing, since they answer to the same Masonic authority as the Feds. Just as important, and even if deadly force was justified, the public and the media [who are just pretending] have **raised concerns about the overall transparency, functioning, and oversight of the agencies involved in the investigation.** We will always have problems with transparency, functioning and oversight of all government agencies because they are **all beholden to the same higher power, which is secret because it is evil.** That will remain the case until people lose the fear, trust in God, and challenge the evildoers who serve the satanic secret societies. Those broader questions do not intrude on any investigation. And they are crucially important. They are important, but they will never be answered whilst the Masonic mafia are in power.

To put it mildly, the government's disclosure of a 16-page report, supported by only a single drawing, **does not answer the public's questions about the Massachusetts JTTF in general or about its involvement with Todashev in particular.**

In December 2013, **the American Civil Liberties Union Foundation of Massachusetts ("ACLUM")** <https://aclum.org/> submitted FOIA requests to defendants **Masonic controlled** Carmen M. Ortiz and the **Masonic controlled** FBI seeking documents that would **shed light** [we live in hope!] on these **secretive Masonic government practices.** The Requests sought documents relating to (1) the structure of the Massachusetts JTTF (2) the types and numbers of investigations and assessments done by the Boston FBI Field Office; and (3) the FBI's involvement with Ibragim Todashev.

The FBI denied the Todashev Request and has yet to provide records responsive to the other Requests. The U.S. Attorney has not responded to the Requests at all. Well surprise serfuckingprise.

ACLUM is entitled to the timely release of the requested records. That may be so, but it aint ever going to happen whilst freemasons are in control. What are ACLUM going to do about that? I can answer that question too – **sweet fuck all. Why? Cos they too are a bunch of pretenders; in sweet servitude to the Masonic beast.** Without even looking into who's funding this well organised outfit, you only have to see who is staffing it <https://aclum.org/about/staff-advocates/> Anyone who is genuinely fighting for truth and justice does not have any staff. Prove me wrong ACLUM; all you have to do is endorse my work in my pdf on the BB psy-op.

These records will contribute significantly to the public's understanding of how the Massachusetts JTTF functions and the government's involvement in the death of Ibragim Todashev. The freemasons will move hell and high water to prevent the public understanding *who* is really in power - who controls every body of authority; how evil their deeds are, and how they get away with their crimes.

For more than **three decades**, the piss taking thieving Satan-serving federal government has told us they have **implemented programs to enhance coordination between federal, state and local law enforcement agencies** **all of whom** are controlled by the same Masonic puppeteer in the form of Joint Terrorism Task Forces ("JTTFs"). That translates to more pseudo jobs for the boys; all paid for by the long suffering slaves [American public.] You don't need programs to enhance coordination between such agencies; you just need to get the Masonic mafia out. Whilst those bastards are allowed to get away with hijacking governments, government agencies, and whatever the fuck they want, there will be a never ending number of programs [and/or projects] – all paid for out of Joe Public's purse. Do you suppose a company would get away with such practices? They'd be out of business in no time.

Another lying toad U.S. Representative **Michael McCaul**, who will almost certainly be a very high level scumbag mason, **chairman** of the sham House Homeland Security Committee commented that a **failure to share information between agencies may have contributed to the Boston Marathon bombings.** "**My fear** is that the Boston bombers may have succeeded because our system failed," Rep. McCaul said." The Boston bombers succeeded because of evil cowards like him who can be trusted to defend official story **lies**. His only fear is of the American populace getting wind of the fact he is just another morally

depraved hypocrite; just another trusted loyal and **well rewarded defender of the real murderous terrorists.**

McCaul, just like all the pathetic Masonic lackeys, are hoping that they can placate the public with this 'system failure' line long enough to stave off any serious challenge to their fiefdom.

Back to the 'Homeland Security' bogus investigation. This is how the game is played:

P 23 [under the title 'oversight' [are you grasping this peeps; the bastards who caused the marathon explosions are calling the failure to catch the bombers – themselves – an 'oversight'. You really couldn't make this shit up]]: "On April 20th 2013 the committee say that they **sent the first of several letters to the FBI, DHS and the ODNI** in response to the death of Tamerlan Tsarnaev and the public announcement that he and his brother were suspects in the Boston bombing investigation. Whether they did or didn't send any letters matters not a jot. **This letter we're told requested "all information and records"** relating to TT held by the US Government. Again on April 27th 2013 the committee, **pretending to be doing all they could to bring the big bad FBI to heel**, sent the same three Federal agencies a **detailed series of questions re TT's history**. In **early May** the committee of fakes received a response from the **unnamed legislative affairs representatives [turds] from FBI, DHS and DNI indicating those agencies would not provide answers to the committee**. Intent to move forward in this **investigation [charade]** however, the committee convened its first **show of a hearing on the Boston marathon bombings to hear from local law enforcement officials of Boston and the Commonwealth [yeah the common wealth of the Masonic piss taking shit bags in power]** of Massachusetts, as well as other **experts** all of whom I've exposed in my pdf on the BB psy-op as utterly corrupt vile liars.

These smug bastards will continue to collect their big fat pay cheques [courtesy of the long suffering American tax payers], and will continue to **live their comfortable life-styles** engaging in phoney hearings; having enjoyable meetings, and exchanging *sham* letters [or *pretending to*] with others in the funny handshake club; *pretending* to be seeking answers, whilst all the time *pretending* to be fighting in opposing teams.

It was argued we're told, by a bunch of frauds in a May 5th 2013 response that may or may not have occurred; who cares? to the committee that these meetings which may or may not have happened,

and is immaterial and a waste of taxpayer's money anyway, and some brief phone conversations which may or may not have happened; who cares? between the committee of clowns and senior unknown FBI, should be considered enough to satisfy the committee's mock enquiry. However there remained significant gaps in the information supplied, and notes of these meetings were never made available for review or verification. Not that it matters what was or wasn't made available to a bunch of fraudsters, who are all in on the **fun and games that they're all paid handsomely to partake in**. In mid June 2013 DHS provided briefings at length to answer the committee's questions. **The FBI declined to participate**. On June 12th 2013 the committee continued the pretence and extended a formal invitation to their brethren in the FBI, DHS and NTCT to **provide official testimony on the bombings** knowing full well that the names of the real murderous bastards behind the marathon carnage would remain a very well kept secret. **The FBI** we're told **again** took the piss and **declined citing any old excuse about the ongoing prosecution [travesty] of Dzhokhar Tsarnaev**. On July 3rd 2013 the **FBI** apparently [what does it matter if they did or didn't, since it's all a disgusting pretence?] **wrote the committee to reiterate their refusal to satisfy the committee's pretend inquiry**. Despite the fact we committee of tricksters say that the letter's assertion that briefing the committee could damage the FBI's fraudulent investigation i.e. stitch up and prosecution of Dzhokhar who we on the committee know is completely innocent, the **committee's pretend requests have focussed on information pertaining to Tamerlan**, not Dzhokhar. Further we'll play along with the idea that this letter [which may or may not exist – who gives a fuck] attempted to **argue that the FBI's interpretation of congressional jurisdiction released them from their obligation to answer the committee's questions**." That is Masonic speak for "fuck you" – from the FBI and their chums on the committee of frauds.

P 24: "However in September and October 2013 during a series of meetings with their committee friends, FBI officials indicated a willingness to **"reset" relations** [ferfuck's sake; there really is no end to the complete bollox that these degenerates come out with, is there!] and begin cooperating with the committee's investigation. You can read the rest of that load of old BS at your peril. I can't be arsed typing it all up.

The **9/11 commission** [another bunch of total lying frauds] urged a **'unity of effort in the congress'**; that congress **should create a single, principle point of oversight** an review for the pretence of homeland security which means security for establishment poodles only. **This call**

was answered in part when the committee was established as a standing committee [standing joke].

How long are the good people of America willing to tolerate the criminals in congress???

P 25 [under the title 'Findings and Recommendations' [oh God; I feel a wave of nausea coming on again]]: "On May 9th 2013 another filthy lying pathetic bum sucker **BPD Commissioner Edward Davis** engaged in buck passing **pretence** when he testified before the Committee that **neither he nor the wider Boston Police Department** were alerted to the potential threat that TT posed [not that Tamerlan was ever a potential threat] either before, during or after the Boston JTTF's 2011 assessment [which didn't happen] of TT:

Chairman McCaul. Before the bombing were you aware that based on this Russian Intelligence, the FBI opened an investigation into Tamerlan? Not that they did [and not that there was any Russian Intelligence]; but let's go along with the script.

Commissioner Davies. We were not aware of that.

Chairman McCaul. Before the bombing were you aware that Mr. Tamerlan travelled to the Chechen region?

Commissioner Davies. No, we were not.

Well at least we have confirmation from the Boston Police Department commissioner himself, that there was **no investigation of Tamerlan.**

The BPD had officers assigned to the Boston JTTF. However existing agreements between the FBI and partner agencies **required FBI approval** [my arse. I'll tell you this folks, if you or I – i.e. folk who are **not controlled by freemasonry or any other secret society** - were suspect terrorists, do you think anyone would need the FBI's approval or anyone else's approval to share information???] before Task Force Officers [TFOs] could share information with their parent agencies. We are being told that even though the BPD had officers assigned to the Boston JTTF, **FBI approval** was required before information could be shared. **And this most vital of loopholes wasn't closed post 9/11?**

The Committee has found similar prohibitions on **sharing information** across the country. In fact, this requirement is a staple of the Memoranda of Understanding [MOUs] signed between the FBI and other Federal, State and local entities that are assigning personnel to a JTTF. Well you can bet your bottom dollar that if a suspect terrorist or any criminal was **not part of a psy-op** [whether being a victim of it, as in the

Tsarnaev brothers, or being 'in' on it] there would be no problems whatsoever with information sharing. Put it this way, if you or I i.e. folk who have no allegiance whatsoever to freemasonry or any secret society intended to become terrorists, there would be **no such Memoranda of Understanding then**. That is, of course, if we weren't the ones being set up as patsies!

Though **Commissioner Davis raised these concerns**, [Davis' only concerns are that the public will cotton on to the huge role he plays in this filthy psy-op] it should be noted that he also stated the **BPD may not have done anything differently based on the reporting of the Russian government.**" Then the prick has just admitted that his idea of policing is to protect the criminals in power, not the Bostonians!

Incidentally at the bottom of p 25 is a reference to <http://www.cq.com/doc/congressionaltranscripts-4272296> however when you click on that link, you get this message:

Login

Username

Password

Remember me [Forgot Password?](#)

But there is no facility in which to get a password; which means we're not privy to those transcripts. Wonder why!

So commissioner Davis wants you to believe he's with the Russians, blaming the big bad FBI. Well if this wasn't a psy-op i.e. a **massive pretence for public consumption**, it would surely have bugged up his close relationship with them. According to his testimony <http://docs.house.gov/meetings/HM/HM00/20130509/100785/HHRG-113-HM00-Wstate-DavisE-20130509.pdf> "The **Boston Police**

Department for many years has enjoyed long-standing professional and personal relationships that helped facilitate effective collaboration during this case. For example, within moments of my receiving notification from my officers about the two explosions at the finish line, I contacted my colleague, Special Agent in Charge of the FBI Boston Office Richard DesLauriers [as said, another spineless and nefarious little man] and shared all of the information I had at the time. And what information might that be ya lying smug twat? He immediately began to deploy resources to assist us.”

Davis further exposes himself as degenerate filth when he **continues to parrot the Masonic script**; going on to say: “The community played a critical role in this fight against terrorism. The public are the *only* hope we have in the fight against terrorism [and by that I mean the **terrorists in power**]; we just have to wake the buggers up to that fact. In Watertown, despite heavy police presence for more than 12 hours, and a house by house search in a twenty block perimeter for one of the two suspects, it was the critical observation of a neighbor that something was amiss in his backyard that led to the capture of one of the bombers. In Boston, it was the cooperation of the owners of the Forum Restaurant whose video cameras led to the identification of the two terrorists. It was the cooperation of the people of Boston, Watertown, and several other neighboring communities who voluntarily [thought it was compulsory] assisted our police departments by staying indoors during this protracted manhunt that led to the safe resolution of the capture.”

And have you noticed the scheming scumbag is blatantly furthering the Police State agenda – he’s trying to kid you that he wants to protect you from the terrorists; what he’s actually doing is **protecting the terrorists**. Here are the words of the devil: “I come before you today to ask for **continued investments in infrastructure that would aid in our policing efforts**. In the case of the Boston Marathon bombings, we had to rely almost exclusively on the support of our business partners to provide critical video surveillance along the finish line. The information helped us identify and catch these two terrorists. I strongly support the **enhanced ability to monitor public places. This monitoring, which been upheld by the United States Supreme Court, violates no Constitutionally protected rights** but gives police the ability to investigate and effectively prosecute. Images from cameras do not lie. They do not forget. They can be viewed by a jury as evidence of what occurred. These efforts are **not intended to chill or stifle free speech**, but rather to protect the integrity and freedom of that speech

and to protect the rights of victims and suspects alike. I also encourage the federal government to **continue the important funding for the hiring of police officers as well as intelligence analysts**, who are needed for both the prevention of further crimes as well as to respond to incidents such as this one.” The bastard wants to spend more of your hard earned taxes on monitoring you, and on hiring more of the same type of lying cowardly police officers and FBI agents that conspired to hang the totally innocent Jahar.

He ends with a vow to continue lying and deceiving in servitude of Satan and his NWO slavery agenda: “Patriots Day 2013, and indeed, the ensuing days that saw the largest manhunt in the history of New England unfold across several of our communities, **changed us all forever**. It is my fervent hope that **we can maintain our freedom, and protect our fundamental values and at the same time, harden our resolve to discourage and thwart extremists like the two who tried and failed to change our way of life**. The extremists that he is referring to that he wants to thwart are the people who genuinely value and fight for freedom.

I want to thank fellow crooks **Governor Deval Patrick and Boston Mayor Thomas Menino** for their **unrelenting support and the ongoing deployment of resources** to assist both law enforcement and the victims of this attack.”

Have a look at this video where we see **New York mayor Michael Bloomberg and police commissioner Ray Kelly** being interviewed – telling us to **expect more surveillance** <https://www.youtube.com/watch?v=rT5YjTBwwD4> It ends with Bloomberg telling us the person sitting next to us may be just someone sitting there; or it may be a detective trying to keep us safe ... Be very afraid folks; **we are sleepwalking into totalitarianism. Please people; WAKE UP, and let's stop this madness**. Incidentally the person[s] behind this video [StillSpeakingOut](#) is/are not genuinely on the side of freedom and justice for Jahar; this is a **cointelpro** video. The distorted voice over is a dead giveaway; as is the use of a pseudonym. More on this in my sister BB psy-op pdf. http://sharonkilby.co.uk/site/THE_BOSTON_BOMBING_PSY-OP_-_a_closer_look_at_the_work_of_the_COINTELPRO.php

Back to the bogus Homeland Security report.

P26: “As investigative bodies, JTTFs bring the expertise of several agencies under one roof to combat terror threats, but in this case, and possibly in others, the information they possessed may have been valuable when shared with other agencies. As former mayor of New York, yet another disgusting specimen of the human race, Rudy Giuliani explained in testimony before the committee [notice how Satan’s servants have to keep wheeling out a never ending stream of other disciples of the devil to prop up their lies], sharing information outside of the JTTF with local law enforcement [umm weren’t we told that the Boston Police Department did have officers assigned to the JTTF; that the problem was **FBI approval** was required before information could be shared?] about terrorist threats can help investigators.

But there’s a second reason why the Boston Police should have been notified, and it wasn’t just to notify the Boston police; it was to ask for help. If the FBI receives notification from the government of Russia that a man is a suspected terrorist, and the FBI doesn’t know if the man is a suspected terrorist or not, but has to investigate this, where would you go immediately? Where should you go immediately to get information about that but to the police department where this man lives? Not just to notify them, to ask for their help. To ask them for all the information they have about him, to ask them to put him under surveillance, to ask them to watch them [them or him?].”

Well duh! And that is exactly what happens in *genuine investigations* i.e. not the ones **we’re told about in a psy-op**.

It’s not difficult to see how this Masonic arse-licking lying git Giuliani earned the title ‘**Honourable**’.

So, to sum up, the committee’s recommendation is to “foster a more open and collaborative relationship, where more TFOs can share information with their parent agency and local fusion centres.” [P28.]

Well hallelujah! <https://www.youtube.com/watch?v=usfiAsWR4qU>

Under the heading ‘TECS Lookouts’ the piss-take brigade take the art of piss-taking to new levels: “**Official FBI and DHS accounts** [are there such things as *unofficial* FBI and DHS accounts?] **cannot officially verify whether the [cough] TECS alert was shared with the unknown FBI case agent** who led the [cough] 2011 assessment. Can they not *unofficially* provide verification then? Upon his return from Russia TT’s cough TECS alert once again notified the **unknown** record-holder of his

intended travel. **Once again neither DHS or FBI can verify from written or electronic records if this information was passed on** from the **unknown** CBP officer on the Boston JTTF to his **unknown** colleagues, and in particular the **unknown** case agent. **Publish the records [including all official and non-official accounts], and let us see for ourselves who didn't know what.**

If you take a look here

<http://www.bostonglobe.com/metro/2015/03/03/boston-marathon-bombing-trial-witnesses-and-exhibits/TNLn7fn2CJ5GbC7jxEMBwM/story.html>

You'll find the following document published

DATE: February 5, 2014

I, Lonnie Lawson, HEREBY CERTIFY that the attached documents listed and described below are true and correct copies of border crossing information collected and maintained in U.S. Customs and Border Protection's (CBP) TECS system in the ordinary course of CBP business, and that I am the Custodian of Records for TECS.

Based on my responsibilities and duties and information made available to me by my staff and other knowledgeable CBP personnel in the course of performing my duties and responsibilities, I have knowledge about TECS, its use by CBP, and the relevant record-keeping practices of CBP as it relates to TECS. My position affords me with the ability to access data recorded and maintained in TECS.

A search for border crossing information collected by CBP and maintained in TECS for Tamerlan Tsarnaev, date of birth 10/21/1986, was performed. The date range queried was from 1/21/2012 through 7/17/12. The results of the query are reflected in the attached pages numbered CBP 000001 – CBP 000003.

Certain information in such documents has been redacted to remove sensitive personal identifying information (PII) of other third parties, sensitive internal security codes, and/or proprietary data.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Signature

Lonnie Lawson
Custodian of Records for TECS
Office of Information and Technology
U.S. Customs and Border Protection

I HEREBY CERTIFY that Lonnie Lawson, who signed the foregoing certificate was at the time of signing Custodian of Records of CBP for TECS and as such, was the legal custodian of the above listed documents, and that full faith and credit should be given to such certificate.

IN TESTIMONY WHEREOF I have hereunto set my hand, and caused the seal of the Department of Homeland Security to be affixed this FIFTH day of FEBRUARY Two Thousand and Fourteen.

By direction of the Secretary, U.S. Department of Homeland Security:

Printed Name: Babette Groat

However you'll notice that the pages referenced – CBP 000001-CBP 000003 are conspicuously absent. Wonder why!!! You'll also notice that the date queried was **21st January 2012 to 17th July 2012** [the dates Tamerlan travelled from the USA to Russia and returned].

It doesn't look like Lonnie Lawson was asked to check TECS records dating back to 2011.

Yet beyond a record of the [cough] TECS alert notifying the unknown CBP officer who initially placed this [cough] alert that TT was leaving it is **not clear** that this information was shared with unknown others on the Boston JTTF. The committee understands [on what grounds?] it is possible [and even likely [why is it?]] that this [cough] alert, and the [cough] alert that was sent upon TT's return were **shared verbally** [ha ha; as if. The monkeys on this committee are really scraping the barrel with this load of old fanny; aren't they. As if any kind of record keeping is done *verbally*, let alone records of this nature] with others, but we haven't a Scoobies who the fuck they are on the Boston JTTF, yet the absence of a reliable record that demonstrates this makes it **difficult to know with certainty who was aware that TT was travelling**. Maybe that's because no-one needed to know ... because he was **never being monitored** ... because he **wasn't on any terrorist watch list** ... because he **wasn't a terrorist**, and had **no intentions of becoming one**.

Specifically TT's name spelling and date of birth were inaccurate, and as a result there was no match through TIDE [Terrorist Identities Datamart Environment]. In TECS records that we say were provided to the committee, even though they weren't because they don't exist an alert entered on October 20th 2011 spells Tamerlan Tsarnaev's surname as 'Tsarnayev' and lists his birthday in 1987 instead of 1986." So publish these TECS records. **Prove** there are errors in Tam's name or his d.o.b.

Under the heading 'Reviewing TSDB Nominations' the monkeys really are taking the Michael. They must have been pissing their pants when they wrote the following: "The committee **recommends changes** to the TSDB nomination process that would require a **third-party agency with information on an individual being nominated to proactively share corrections or additional information**. In this case the FBI was made aware of TT's TIDE record, and had more accurate information [a correct name and date of birth] they did not share with the NCTC. Additionally on August 6th 2013 both the NCTC and CBP signed a **Letter of Intent** [Letter of Intent indeed; piss taking bastards] to improve data sharing and record enhancement related to the watchlist. Particularly, according to CBP officials, CBP TSC and NCTC are now able to automatically transmit data to quickly enhance TIDE/TSDB records." **Not that any of**

that will prevent the next **Masonic engineered and executed** terrorist attack.

Under 'Addressing Long-Term Challenges' the forked-tongued committee continue to regurgitate blatant lies: "... it was **not until TT's fingerprints were scanned that the identity of the attackers became known to authorities ... Not one associate of Tamerlan or Dzhokhar Tsarnaev identified them to the authorities**. Actually they did; well they **tried to!** One of Jahar's friends, Sierra Schwartz, says in answer to the question – did you call authorities when you saw his picture on TV? "No because **we were told at the time the media was wrong, and said he was someone else so a lot of my friends and I who recognised him just went back to bed.**"

<https://www.youtube.com/watch?v=3pDNgUk1POc> [2 h 41 mins.]

Jaw dropping or what? You really couldn't make this shit up.

The **hypocritical brown nosed traitor Ruslan Tsarni**

https://www.youtube.com/watch?v=by_CJrD7r_c wants you to believe he'd been following events since day one, but he didn't see the photos of the 'suspects' that were flashed up on TV screens at 5:10 pm on Thursday 18th April, he only saw the pictures at **7 am next morning [19th April 2013] when he was contacted by reporters. Perhaps he'd like to tell us how these reporters knew he was a relative of the 'suspects'**. Notice none of the lame 'reporters' [MSM gatekeepers] firing questions at him ask him that question! So, umm, what happened – were Tamerlan's fingerprints scanned soon after he had died i.e in the early hours of the morning sometime after 1:35 am, whereupon word went out to the Associated Press that the suspects had been identified, whereupon reporters descended upon Tsarni's abode to inform him that 'Bomber One' was his dead nephew? Take a look at my pdf on 'The JANSPOUT backpack' for an interesting read.

http://sharonkilby.co.uk/site/THE_JANSPOUT_BACKPACK.php

Course Tsarni will have been well briefed by the grey suits not to slip up and say that he saw his nephews on TV on Thursday evening, as that would have raised an '**out of the box**' question of why *he* hadn't doxed them in. The masons couldn't have their puppet Tsarni facing accusations that his inaction led to Collier being murdered, Dun Meng being carjacked, Dic Donohue being seriously injured, Boston being on Lockdown ... Members of TT's mosque, the ISB, did not identify him as the man they **had thrown out** [where's the evidence he was thrown out of

a mosque?] months before for arguing with a preacher. **Classmates and friends of Dzekhar did not alert police that they recognized his face on TV. As shown, that is just another filthy lie.** These inactions may have cost MIT police officer Sean Collier his life.” Well if we are going to go along with the story that the Tsarnaev brothers bombed the marathon, then **since the FBI knew the brothers very well**, it was **actually the inactions of the FBI** that cost Collier his life, and almost cost Dic Don his life, and caused the implementation of martial law in Boston, and Dun Meng’s terror ride around the streets of Boston. Course, as has been shown by Sierra Schwartz, the **authorities themselves** caused all that.

The truth is these filthy lying ‘Homeland Security Committee’ bastards, and lying co-conspirator Ruslan Tsarni are **protecting the person[s] who murdered Sean Collier**. Carry on pretending, you traitorous animals; Satan loves you.

Oh and apparently “the **account** that doesn’t exist; but we on the committee can just keep telling you sweet little lies cos we don’t have to prove anything we say is true of Watertown **Police Officers** [bold-faced **lying twats** – Reynolds, Maclellan, Pugliese ...] who, according to the script, first encountered Tamerlan and Dzekhar Tsarnaev **makes clear they did not suspect the two brothers had committed the attack until the Tsarnaevs exchanged gunfire with law enforcement** [LOL] and **detonated improvised explosives on the street.**” Bwa ha ha ha.

Let’s see; so did the conversation go something like this:-

PUG: “Psst Mac, do you reckon those fellas over there shooting at us and chucking pressure cookers are the ones who bombed the marathon?”

MAC: “What makes you think that Pug?”

PUG: “Well those pressure cookers that they’re lobbing look like the ones which caused the Marathon explosions; albeit they’re a bit smaller.”

MAC: “I do believe you’re right. Well spotted Serg.”

Incidentally the idiot Reynolds [accompanied by his fellow wannabe hero Mac the monkey, both of whom take bullshitting to new levels, and really should have made *some effort* to keep their stories straight] tells the ‘Kirk & Callahan’ clowns that it was an *hour after the shooting* when they realised they’d just ‘taken down’ the Boston Marathon Bombers
<http://media.weei.com/a/74947389/watertown-officers-maclellan-and-reynolds-on-being-the-first-on-the-scene-with-the-terrorists.htm>

And notice the ref – Vincent DeWitt. *Supra* note 69. WTF???

On p 36 under the title 'Encouraging Cooperation and Assistance from the Community', "the committee of sly gits recommends efforts to strengthen and expand DHS 'If you see something, say something' program ... Ensuring that Americans are alerting their local police or Federal authorities to suspicious behaviour or other potential indicators is an important step in preventing terrorist attacks ... members of a local community are the individuals best placed to identify potential terrorist threats." This of course is not about saving lives; this is the DHS' snitch campaign which is conditioning unsuspecting Americans into welcoming a **police state takeover**.

Their final recommendation under the title 'Ending the 'Case Closed' Mentality' takes piss-taking to breathtaking levels. I quote: "The foul gang on the committee has been telling a pack of lies, including lying about being informed that while the FBI and other agencies have conducted multiple reviews related to this case, none has resulted in a formal report memorializing the relevant findings. Though a joint effort by the Inspectors General [IGs] and the Intelligence Community, Department of Justice, Department of Homeland Security, and the Central Intelligence Agency [ALL OF WHOM ANSWER TO THE SAME MASONIC MASTER AS THE ONE PULLING THE STRINGS OF THIS GANG OF 'HOMELAND SECURITY' SLEAZEBAGS] to look into this matter was announced on April 30th 2013, this effort is ongoing." That means **never ending** i.e the evil men in their dirty **secret societies** will continue to create all sorts of agencies, departments, communities, committees, clubs, offices, services, bureaus, companies, organizations, firms, inspectorates, task forces ... all under the guise of 'security' who will be staffed by dishonest immoral vile spineless agents of the State, all of whom will be well paid and well practiced in the art of **bullshitification**; all of which will be paid for by all of us hardworking mugs, until you and I are so utterly enslaved there will be fuck all we can do about it. Job jobbed.

According to the Associated presstitutes the brothers' mother Zubeidat was **also on a CIA terrorist watchlist 18 months before** the attacks, and is now a 'person of interest'. RT say that the CIA *reportedly* put her on the Terrorist Identities Datamart Environment database (TIDE) at the same time that Tamerlan was added; and that this news comes *after* she accused US police of murdering her son.

<https://www.rt.com/usa/boston-bombing-boat-tsarnaev-507/> Notice **NONE** of the propagandists provide a link to the source of that filthy lie.

There is no mention of Zubeidat being on a terrorist watchlist in the 'Committee of House Homeland Enslavement' report, or in any of the court documentation. There is no mention of her being assessed, or of her **being of any concern at all** to the JTTF when they were *supposedly* assessing Tamerlan.

Course the propaganda prostitutes had to demonize the mother when she cried foul, and exposed the FBI as lying about not knowing her sons; insisting they had been framed.

Perhaps the media scumbags would like to tell us what terrorist activities Zubeidat was involved in; or what sort of terrorism she was *thinking* of getting involved in. I guess she is viewed as a terrorist as she has the front to expose the American government as murderous lying bastards.

Course it is no surprise to see the media whores trying to discredit her by attaching her name to the shit the COINTELPRO network have saturated the blogosphere with. For example: "It wasn't blood... it was **PAINT**': Boston bombers' **defiant** mother launches **bizarre defense** of her **'framed'** sons." <http://www.dailymail.co.uk/news/article-2314663/Boston-bombers-crazed-mother-Zubeidat-Tsarnaeva-says-marathon-carnage-play-paint-instead-blood.html> Notice the gutter mail do not put a link to the **proof** of that claim. I would like to see where Zubeidat herself says that.
